STATES' RIGHTS DOCTRINE IS ADOPTED BY Sisson

Gentleman from Mississippi
Attacks Position That Treas-
ury Making Power Is Super-
ior to Local Legislatures.

SEES GRAVE DANGER IN IMPORTATION OF ALIENS

Protest of President Wilson
Against Inflammatory Talk
in Congress Fails to Stop
Southern Fireeater.

(By Leased Wire to Evening Herald.)
Washington, May 23.—Representative Sisson of Mississippi made his announced speech today in the house. President Wilson, after Mr. Sisson recently made a "war speech," called the representative to the White House and asked him not to make another speech that might complicate the diplomatic negotiations with Japan or inflame the public mind.

Mr. Sisson today disclaimed any intention of making a "war speech," but attacked the position that the treaty-making power superseded the law-making power of the sovereign states. Mr. Sisson declared he took his position "not because the Japanese were involved, but because the law-making power of the sovereign states is being destroyed." He said that if only required "patience and cool heads for both countries to arrive at an amicable, fair and just settlement of all difficulties."

"If any nation," said Mr. Sisson, "should decide that they will dictate to us our laws, then we would be unworthy of national existence. If we submitted to such dictation, does anyone claim that this is a declaration of war because I announce this truth?"

"It is no declaration of war for the United States government to decline to override the rights of the sovereign state at the dictation of a foreign power. If the United States government should declare a state of war over to the mercies of a flood of aliens from any nation, then I maintain that the federal government would have precluded its authority. Is the mere announcement of this principle a declaration of war?"

"Nothing has been further from my mind than to announce or to tend to render more difficult the peaceful solution of whatever differences, real or imaginary, may exist between the friendly government of Japan and our own government."

Mr. Sisson pleaded for the open door on treaty sessions of the senate.

"If the president and senate can make such a treaty, let us test every door of secrecy. Let us require the president to publish every letter and telegram bearing upon a contemplated treaty on the very moment of its dispatch. Let the closure of the senate be removed. Throw open the doors."

Mr. Sisson made a lengthy argument purporting to show the inability of corporation control of land, which would be made possible by allowing the importation of "cheap alien labor."

"Many of these large employers of labor," he said, "would be delighted to have the federal government, through its treaty-making power, let down the bars and let the alien come in. What would become of the American farmer if the great corporations of the country should buy all the best lands and cultivate them with Chinese, Hindu, Japanese and other cheap alien labor?"

"In California individuals and corporations owning great tracts of lands are cultivating them with Hindustani, Chinese, Mexicans and Japanese. It is this class of land owners and land monopolists who are opposed to any restriction on labor importation into this country."

"The rich and powerful who purchase labor will have their fortunes easily increased by having all barriers to cheap labor broken down. They know that the quickest and surest route is through the treaty-making power because they only deal first with the president, and one body, two-thirds of the senate."

"I don't want this government to be destroyed through the treaty-making power," Mr. Sisson concluded. "So gentlemen of the house, I have taken this position, not because the Japanese are involved in this controversy, but I would take this position in England, Germany, France or any other nation on earth were involved."

MISSIONARY DENOUNCES THOSE WHO TALK WAR

Detroit, Mich., May 23.—The war who, by word or deed, creates bad feeling between the United States or Japan, is an enemy of the Christian religion, declared James H. Secretary Franklin, in discussing a recent tour he made in Japan, said:

"The Japanese want no trouble with the United States unless the trouble is forced upon them in defense of what they consider their national honor."

REORGANIZATION OF REPUBLICAN PARTY PROBLEM FOR COMMITTEE

Party Heads Expected in
Washington for Gathering
Tomorrow When National
Convention Will Be Dis-
cussed.

CONCILIATION PLANS OUTLINED BY CUMMINS

(By Leased Wire to Evening Herald.)
Washington, May 23.—Charles D. Hilles, chairman of the Republican national committee, is expected here today to prepare for tomorrow's meeting of the national executive committee called to consider preliminary plans for party reorganization and to hear from the conciliation committee of Progressive Republicans.

The conciliation committee appointed as the result of the recent Chicago conference of Republican Progressives to urge party reforms and a national convention next fall, met today with its chairman, Senator Cummins, to outline plans for an argument before the executive committee.

The principal purpose of the conciliation committee is to induce the executive committee to call a meeting of the national committee in the near future to consider issuing a call for a party convention to take up reorganization plans.

Senator Ballinger, chairman of the committee of senators to confer with house leaders on reorganization of the Republican congressional committee, said today that the chairman of the reorganized committee would go to the members of the house.

"In organizing the senators committee to confer," Mr. Ballinger continued, "we thought we must recognize the so-called Progressive wing of the party as well as the so-called reactionaries. Senator Norris is a revolutionary in the house and is a very active Progressive in the senate. Senator Jones, I suppose, is a three-quarter Progressive. Whatever that term means, and Senator Townsend, I suppose, is about one-quarter Progressive. Senator Clark of Wyoming did not see the reactionaries, I suppose."

Senator Cummins' committee finally decided to address a letter to the Republican executive committee tomorrow asking that a meeting of the national committee be called and leaving the way open to an invitation for the Progressives to appear before the committee to further explain their position. The committee desires to hear them.
